

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jay Chandran  
DOCKET NO.: 04-21064.001-R-1  
PARCEL NO.: 01-22-400-077-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Jay Chandran, the appellant, by attorneys Leslie Hedges and Joseph Huang with the Law Offices of Terrence Kennedy, Jr. in Chicago, and the Cook County Board of Review (board).

The subject property consists of a seven-year-old, two-story, single-family dwelling of masonry construction containing 10,362 square feet of living area and located in Barrington Township, Cook County. Features of the residence include seven full bathrooms, a full-unfinished basement, air-conditioning, four fireplaces and a three and one-half car attached garage.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story, single-family dwellings of masonry or frame and masonry construction located within 3.19 miles of the subject. The improvements range in size from 9,660 to 12,784 square feet of living area and range in age from four to twelve years. The comparables contain from four and one-half to six and one-half bathrooms, a full-finished or unfinished basement, air-conditioning, from two to four fireplaces and a four-car attached garage. The improvement assessments range from \$11.59 to \$13.37 per square foot of living area. The appellant's evidence disclosed that the subject sold in September 2003 for a price of \$1,825,000.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 36,051  
IMPR.: \$ 146,812  
TOTAL: \$ 182,863

Subject only to the State multiplier as applicable.

PTAB/rfd6317

At hearing, the appellant's attorneys argued that the appellant's comparables are similar to the subject and should be considered as such by the PTAB. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$182,863. The subject's improvement assessment is \$146,812 or \$14.17 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, five or seven-year-old, single-family dwellings of masonry construction located within the same survey block as the subject. The improvements range in size from 6,541 to 9,609 square feet of living area. The comparables contain from three to five full bathrooms, a full-finished or unfinished basement, air-conditioning and a four-car attached garage. Three comparables contain multiple fireplaces. The improvement assessments range from \$13.97 to \$14.53 per square foot of living area. The board's evidence disclosed that the subject sold in August 2003 for a price of \$1,825,000.

At hearing, the board's representative indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The PTAB finds the appellant's comparables one, two and three and the board of review's comparables one and two to be the most similar properties to the subject in the record. These five properties are similar to the subject in improvement size, exterior construction, amenities, age and location and have improvement assessments ranging from \$11.59 to \$14.53 per square foot of living area. The subject's per square foot improvement assessment of \$14.17 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size, location and/or exterior construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot

improvement assessment is supported by the most similar properties contained in the record. As a result of this analysis, the PTAB finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
