

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Michael Ventura
DOCKET NO.: 04-21186.001-R-1
PARCEL NO.: 12-25-217-041-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Michael Ventura, the appellant, by attorney Joseph G. Kuser of Storino, Ramello & Durkin of Rosemont and the Cook County Board of Review (board).

The subject property consists of a seven-year-old, two-story, class 2-78 dwelling of masonry construction containing 2,620 square feet of living area and located in Leyden Township, Cook County. The residence includes two and one half bathrooms, a full basement, air conditioning and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within a half mile of the subject. These properties consist of two-story, class 2-78 or one and part two-story class 2-04 dwellings of frame construction, and range in age from 56 to 113 years. The comparables include one or three bathrooms, one with a half bath, and two with full basements. Three comparables have one or two-car garages. The comparables contain between 2,190 and 2,989 square feet of living area and have improvement assessments ranging from \$18,608 to \$24,950 or from \$8.35 to \$8.50 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$31,934, or \$12.19 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered four suggested comparable class 2-07 properties located within a quarter mile of the subject. The comparables consist of two-story dwellings of masonry construction. The comparables range in age from four to 57 years, with full or partial basements and three are finished. The comparables have one or two, bathrooms with some half baths, two with air conditioning and two have two-car garages. The comparable properties contain

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.: \$31,934
TOTAL: \$36,434

between 1,089 and 1,946 square feet of living area with improvement assessments of between \$16,727 and \$31,414 or from \$12.60 to \$16.62 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The PTAB finds none of the submitted seven comparables are similar enough to the subject to demonstrate assessment equity or inequity. These seven properties, without adjustments, have improvement assessments ranging from \$8.35 to \$16.62 per square foot of living area. The subject's per square foot improvement assessment of \$12.19 is within this range of properties. The PTAB gives little weight to the seven suggested comparables because they are less similar to the subject in living area or age or construction materials or building classification. After considering both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did not adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

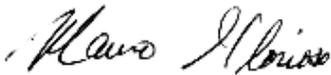

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
