

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Polson Mathew
DOCKET NO.: 04-21657.001-R-1
PARCEL NO.: 10-18-306-040-0000

The parties of record before the Property Tax Appeal Board are Polson Mathew, the appellant, by attorney Joanne P. Elliott, Des Plaines, and the Cook County Board of Review.

The subject property consists of a one-year-old, two-story, single-family dwelling of masonry construction containing 4,211 square feet of living area and located in Niles Township, Cook County. Amenities include a basement, a fireplace, three bathrooms, air conditioning and a garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject.

These properties consist of two-story, single-family dwellings of frame and masonry construction. All of the comparable dwellings contain a garage, three baths and air conditioning. Two contain a fireplace. The comparables range in size from 4,000 to 4,336 square feet of living area and have improvement assessments ranging from \$12.05 to \$12.76 per square foot of living area. A copy of the subject's 2004 board of review final decision and a brief in support of the requested reduction was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$57,468, or \$13.65 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a *reduction* in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	5,636
IMPR.:	\$	52,638
TOTAL:	\$	58,274

detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of two-story, style single-family dwellings of masonry construction. All of the comparables contain one or three baths, a basement, and a garage. One contains a fireplace and two have central air conditioning. These properties range in size from 1,214 to 4,211 square feet of living area and have improvement assessments ranging from \$13.34 to \$17.35 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds that the parties submitted six properties as comparable to the subject. These properties have improvement assessments ranging from \$12.05 to \$17.35 per square foot of living area. The subject's per square foot improvement assessment of \$13.65 falls within the range established by these properties. However, the three most similar comparables are the board of review's comparables one and the appellant's comparables one and three and their range is from \$12.05 to \$13.34 per square foot of living area; the subject falls above this range. Therefore, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
