

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Kate Krakuc
DOCKET NO.: 04-21764.001-R-1
PARCEL NO.: 12-36-209-013-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Kate Krakuc, the appellant, by attorney Lisa A. Marino of Marino and Associates, PC of Chicago and the Cook County Board of Review (board).

The subject property consists of a 52-year-old, two-story, two-unit apartment building of masonry construction containing 2,586 square feet of building area and located in Leyden Township, Cook County. The apartment property includes two bathrooms, a full basement and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered four suggested comparable properties located within a quarter mile of the subject. These properties consist of two-story apartment buildings of masonry or frame construction and range in age from 50 to 77 years. The comparables include three bathrooms with some half baths and partial or full basements, two with apartments. One building has air conditioning. The number of apartment units was not disclosed. Each site contains one, two or three-car garages. The comparables contain between 2,370 and 4,425 square feet of building area and have improvement assessments ranging from \$17,755 to \$37,449 or from \$7.49 to \$8.56 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$24,607, or \$9.52 per square foot of building area, was disclosed. In support of the subject's assessment, the board of review offered four suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story, two-unit apartment buildings of masonry construction. The comparables range in age from 52 to 58 years and three have full or partial basements, one finished. They have two or four bathrooms and three have two-car garages. The comparable

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR. \$24,607
TOTAL: \$32,107

properties range in size from 2,788 to 2,846 square feet of building area with improvement assessments ranging from \$30,766 to \$33,515 or from \$11.32 to \$11.90 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The PTAB finds the board's four comparables while larger than the subject and considering three have two full bathrooms per unit are more similar to the subject than the appellant's comparables. These four properties have improvement assessments ranging from \$11.32 to \$11.90 per square foot of building area. The subject's per square foot improvement assessment of \$9.51 is within this range of properties. The PTAB gives less weight to the appellant's comparables because they are less similar to the subject in living area, construction and age and thus have less influence. After considering the differences in the suggested comparables when compared to the subject property, the PTAB finds the evidence is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did not adequately demonstrate that the subject apartment building was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
