

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: James Jozefat  
DOCKET NO.: 04-22452.001-R-1  
PARCEL NO.: 02-11-204-003-0000

The parties of record before the Property Tax Appeal Board are James Jozefat, the appellant, by attorney Julie Realmuto of McCarthy & Duffy in Chicago, Illinois, and the Cook County Board of Review.

The subject property is improved with a 29-year-old, multi-level dwelling of frame construction containing 1,242 square feet of living area. Features include a partial basement, finished with a formal recreation room, central air conditioning, a fireplace, and a two-car attached garage. The property is located in Palatine, Palatine Township, Cook County, Illinois.

The appellant's appeal is based on unequal treatment in the assessment process as to the improvement assessment. No dispute was raised as to the land assessment. The appellant submitted information on four comparable properties for consideration which were located one mile or more from the subject property and described as multi-level frame dwellings that range in age from 36 to 48 years old. All of the comparables have partial basements. None have central air conditioning or fireplaces. The comparables range in size from 1,248 to 1,484 square feet of living area and have improvement assessments ranging from \$15,789 to \$19,299 or from \$12.65 to \$13.56 per square foot of living area. The subject's improvement assessment is \$22,225 or \$17.89 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$16,419 or \$13.22 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$28,733 was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of multi-level frame dwellings that range in age from 29 to 34 years old. Each comparable has a partial basement which has been finished with a formal recreation room. One comparable has central air conditioning. Additionally, each comparable has a

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,508  
IMPR.: \$ 22,225  
TOTAL: \$ 28,733

fireplace and a two-car attached garage. The dwellings range in size from 1,194 to 1,318 square feet of living area and have improvement assessments ranging from \$22,270 to \$23,650 or from \$17.93 to \$18.72 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

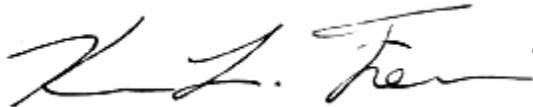

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in size, design, exterior construction, location and age. In comparison, the appellant's comparables were all older than the subject property and lacked the features of the subject property. Due to their similarities to the subject, the board of review's comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$17.93 to \$18.72 per square foot of living area. The subject's improvement assessment of \$17.89 per square foot of living area is below this range. Given the similarity in characteristics, the board of review's presented comparables confirm that the subject property is equitably assessed. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
