

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Imad Shahatit  
DOCKET NO.: 04-23346.001-R-1  
PARCEL NO.: 03-17-113-020-0000

The parties of record before the Property Tax Appeal Board are Imad Shahatit, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 33-year old, two-story dwelling of frame and masonry construction containing 2,769 square feet of living area with a full, finished basement, central air conditioning, a fireplace, and a two car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties located two miles from the subject. The appellant's map also shows the location of comparables not listed on the grid analysis. The comparables are two-story frame or frame and masonry dwellings that are 34 to 42 years old with fireplaces. Two comparables have unfinished basements and two comparables have partial basements. Three comparables have central air conditioning. Their living areas are 2,480 to 3,285 square feet in size, and have improvement assessments of \$9.18 to \$9.78 per square foot. The subject property has an improvement assessment of \$12.79 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing three suggested comparable properties located in the same tax

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$7,328
IMPR.:	\$35,420
TOTAL:	\$42,748

block as the subject. The comparable properties consist of two-story frame and masonry dwellings that are 32 or 33 years old with central air conditioning, fireplaces, and two car garages. One comparable has a full, unfinished basement and two comparables have partial, unfinished basements. The dwellings contain 2,664 or 2,706 square feet of living area and have improvement assessments of \$13.16 to \$13.73 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables were located two miles from the subject. Comparable two and three were larger than the subject. As a result, they received reduced weight in the Board's analysis. The board of review's comparables were more similar to the subject in location, age, and physical characteristics. The comparables had improvement assessments of \$13.16 to \$13.73 per square foot and support the subject's improvement assessment of \$12.79 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
