

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Rohitkumar Desai
DOCKET NO.: 04-23354.001-R-1
PARCEL NO.: 03-34-200-076-0000

The parties of record before the Property Tax Appeal Board are Rohitkumar Desai, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 40-year old, two-story townhouse of masonry construction containing 1,148 square feet of living area with a full, unfinished basement.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. Comparable two is located on the same block as the subject; comparable one and four are located one block from the subject; and comparable three is located one mile from the subject. The comparables are two-story masonry townhouses that are 40 to 43 years old. Three comparables have full basements and one comparable has an unfinished basement. One comparable has central air conditioning and a fireplace. Their living areas are 1,148 or 1,169 square feet in size, and have improvement assessments of \$6.03 to \$7.49 per square foot. The subject property has an improvement assessment of \$11.49 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing three suggested comparable properties located on the same block or in close proximity to the subject. The comparable properties

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$3,196
IMPR.:	\$13,195
TOTAL:	\$16,391

consist of two-story masonry townhouses that are 40 or 41 years old with full, unfinished basements. The townhouses contain 1,148 square feet of living area and have improvement assessments of \$11.44 to \$11.68 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparable three was located one mile from the subject. As a result, it received reduced weight in the Board's analysis. The remaining six comparables were located on the same block or in close proximity to the subject. The comparables had improvement assessments of \$6.03 to \$11.68 per square foot and support the subject's improvement assessment of \$11.49 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
