

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Larry & Sharon Barr  
DOCKET NO.: 04-23358.001-R-1  
PARCEL NO.: 03-28-317-008-0000

The parties of record before the Property Tax Appeal Board are Larry & Sharon Barr, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 39-year old, two-story dwelling of frame and masonry construction containing 2,652 square feet of living area with a partial, unfinished basement, central air conditioning and a fireplace.

The appellants submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellants submitted a grid analysis detailing four suggested comparable properties. The appellants' map indicates the comparables are located three-quarters to two miles from the subject. The comparables are two-story frame and masonry dwellings that are 34 to 58 years old. One comparable has a partial basement, one comparable has a full basement, and two comparables have no basement. Their living areas are from 2,403 to 3,120 square feet in size, and have improvement assessments of \$9.44 to \$11.95 per square foot. The subject property has an improvement assessment of \$14.84 per square foot. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing three suggested comparable properties that are located on the same block as the subject. The comparable properties consist of

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

two-story frame and masonry dwellings that are 40 years old with central air conditioning, fireplaces, and two car attached garages. One comparable has a full, unfinished basement and two comparables have partial, finished basements. The dwellings contain 2,309 to 2,566 square feet of living area and have improvement assessments ranging from \$15.07 to \$16.44 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellants' comparables were located three-quarters to two miles from the subject. Comparable one and two were older than the subject. Comparable two and four differed from the subject in foundation. As a result, they received reduced weight in the Board's analysis. The board of review's comparables were more similar to the subject in location, age, and physical characteristics. The comparables had improvement assessments of \$15.07 to \$16.44 per square foot and support the subject's improvement assessment of \$14.84 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
