

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Ann Eisenmerger
DOCKET NO.: 04-23393.001-R-1
PARCEL NO.: 14-07-413-030

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Ann Eisenmerger, the appellant, by Attorney Gary H. Smith in Chicago; and the Cook County Board of Review.

The subject property consists of 4,075 square foot parcel improved with a 45-year old, two-story, masonry, multi-family dwelling with three apartments, therein. The improvement contains 2,084 square feet of living area as well as a full basement, three full and two half-baths, and a two-car garage.

At hearing, the appellant argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal. Further, the parties jointly requested that the PTAB render a decision in this matter based upon the written evidentiary submissions.

The appellant's pleadings included data and descriptions of four suggested comparables located within the subject's neighborhood. The appellant also submitted a black and white photograph of the subject's improvement. These properties are improved with a two-story, multi-family dwelling of frame exterior construction and two full baths. They range: in age from 90 to 105 years; in size from 1,753 to 2,278 square feet of living area; and in improvement assessments from \$12.82 to \$14.91 per square foot. Amenities include a basement, while two properties also contain garage area. On the basis of this comparison, the appellant's attorney requested an assessment reduction.

The board of review submitted "Board of Review Notes on Appeal" wherein the board's final assessment decision was presented reflecting an improvement assessment of \$35,784 or \$17.17 per

square foot. The board of review also submitted copies of property characteristic printouts for the subject and three suggested comparables. The properties contain a two-story, masonry or frame, multi-family dwelling with two baths. They range in age from 97 to 110 years and in size from 1,760 to 1,884 square feet of living area. Amenities include a full basement and a two-car garage. The improvement assessments range from \$17.54 to \$17.68 per square foot. In addition, the board submitted copies of its file from the board of review's level appeal. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. The PTAB finds that the appellant has not met this burden and that a reduction in the subject's assessment is not warranted.

In totality, the parties submitted seven equity comparables. The PTAB finds that the appellant's comparables #1, #2 and #4 as well as the board of review's comparables #2 are most similar to the subject property. These four comparables contain a two-story, frame, multi-family dwelling with amenities similar to the subject. They range: in age from 90 to 105 years; in size from 1,884 to 2,278 square feet of living area; and in improvement assessments from \$12.82 to \$17.64 per square foot. In comparison, the subject's 2,084 square foot improvement contains an assessment at \$17.17 per square foot of living area, which is within the range established by these comparables.

The PTAB further finds that the parties' remaining properties were accorded diminished weight due to a disparity in improvement size, age and/or amenities.

On the basis of the evidence submitted, the PTAB finds that the evidence has not demonstrated that the subject's improvement is assessed in excess of that which equity dictates. Therefore, the PTAB finds that a reduction in the subject's improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
