

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robert Jahn
DOCKET NO.: 04-23498.001-R-1
PARCEL NO.: 04-35-110-010-0000

The parties of record before the Property Tax Appeal Board are Robert Jahn, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 68-year old, two-story dwelling of frame construction containing 1,861 square feet of living area with a full, unfinished basement, central air conditioning, a fireplace, and a two car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. The appellant's map indicates one comparable is located in close proximity to the subject and three comparables are located one-half to three-quarters of a mile from the subject. The comparables are two-story frame dwellings that are 92 to 112 years old with unfinished basements. One comparable has a fireplace. Their living areas are from 1,980 to 2,085 square feet in size, and have improvement assessments of \$19.28 to \$20.00 per square foot. The subject property has an improvement assessment of \$23.03 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing three suggested comparable properties located on the same block or in close proximity to the subject. The comparable properties

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$7,135
IMPR.:	\$42,854
TOTAL:	\$49,989

consist of two-story frame dwellings that are 63 or 65 years old with fireplaces. Two comparables have one car garages and one comparable has a one and one-half car garage. The dwellings contain 1,346 or 1,418 square feet of living area and have improvement assessments of \$25.13 to \$25.88 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. All of the appellant's comparables were substantially older than the subject. The appellant's comparable one, two, and four were located one-half to three-quarters of a mile from the subject. The board of review's comparables were also larger than the subject. As a result, none of the comparables was truly similar to the subject in physical characteristics to provide clear and convincing evidence that the property was inequitably assessed. However, the Board notes that all comparables had improvement assessments ranging from \$19.28 to \$25.88 per square foot. The subject's improvement assessment of \$23.02 per square foot is within that range and appears to be supported after considering differences in physical and location attributes.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
