

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Wojciech Nalezinski
DOCKET NO.: 04-23893.001-R-1
PARCEL NO.: 02-09-119-010-0000

The parties of record before the Property Tax Appeal Board are Wojciech Nalezinski, the appellant, by attorney Arnold G. Siegel, of Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with a 6-year old, two-story dwelling of frame exterior construction containing 2,452 square feet of living area. Features of the dwelling include a partial unfinished basement, central air conditioning and a two-car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. In support of this argument the appellant submitted information on seven comparable properties described as two-story frame dwellings that range in age from 5 to 16 years old for consideration. The comparables range in size from 2,618 to 2,891 square feet of living area. Each comparable has a basement, each comparable has central air conditioning, six of the comparables have one fireplace and each comparable has a 2, 2.5 or 3-car garage. The comparables have total assessments that range from \$41,829 to \$45,242 and improvement assessments that range from \$32,370 to \$37,909 or from \$11.71 to \$14.18 per square foot of living area. The subject has a total assessment of \$43,656 and an improvement assessment of \$36,923 or \$15.06 per square foot of living area. The appellant argued the subject's improvement assessment equates to a market value of \$94.11 per square foot of living area which is 17.7% more than the average market value reflected by the improvement assessments for the comparables of \$79.99 per square foot. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to reflect a market value of \$79.99 per square foot resulting in an improvement assessment of \$31,382 or \$12.80 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	6,733
IMPR.:	\$	36,923
TOTAL:	\$	43,656

Subject only to the State multiplier as applicable.

The board of review presented descriptions and assessment information on three comparable properties consisting of two-story frame dwellings that were either 6 or 10 years old. The comparable dwellings ranged in size from 2,242 to 2,650 square feet of living area. Each comparable has a partial or full unfinished basement, central air conditioning, one fireplace and a two-car attached garage. These properties have total assessments ranging from \$41,390 to \$46,424 and improvement assessments ranging from \$35,801 to \$40,304 or from \$15.06 to \$15.96 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparable 1 submitted by the appellant and the comparables submitted by the board of review were most similar to the subject in size, age and features. These four comparables ranged in size from 2,242 to 2,650 square feet of living area and ranged in age from 5 to 10 years old. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments ranging from \$14.18 to \$15.96 per square foot of living area. The subject's improvement assessment of \$15.06 per square foot of living area is within this range.

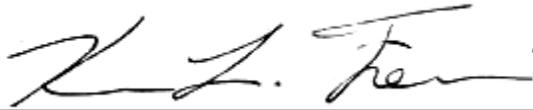

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). The comparables presented by the parties disclosed that a practical uniformity exists.

In conclusion, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
