

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Steven Kantor
DOCKET NO.: 04-24053.001-R-1
PARCEL NO.: 04-14-201-013-0000

The parties of record before the Property Tax Appeal Board are Steven Kantor, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C. and attorney Robert Rosenfeld, Chicago, and the Cook County Board of Review.

The subject property consists of a 48-year-old, two-story, class 2-08, single-family dwelling of frame construction containing 4,282 square feet of living area and located in Northfield Township, Cook County. Features of the home include five and one-half bathrooms, a partial-unfinished basement, air-conditioning and a fireplace.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of frame and masonry or masonry construction with the same neighborhood code as the subject. The improvements range in size from 4,382 to 4,813 square feet of living area and range in age from 33 to 53 years. The comparables contain from two and one-half to four and one-half bathrooms, air-conditioning, one or two fireplaces and a two-car or three-car attached garage. Two comparables contain a full or partial-finished basement. The improvement assessments range from \$18.86 to \$21.19 per square

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 32,849
IMPR.: \$ 89,151
TOTAL: \$ 122,000

Subject only to the State multiplier as applicable.

foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$128,337. The subject's improvement assessment is \$95,488 or \$22.30 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry or frame and masonry construction located within three blocks of the subject. The improvements range in size from 2,972 to 3,394 square feet of living area and range in age from 29 to 38 years. The comparables contain three and one-half or four full bathrooms, a full-finished or unfinished basement, air-conditioning, one or two fireplaces and a two-car or three-car garage. The improvement assessments range from \$22.25 to \$23.83 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a one-page brief arguing the following: that the board of review's comparables, unlike the subject, are class 2-78 properties which consist of homes between 2,001 and 3,800 square feet of living area; and all the board's comparables are superior in type of construction as compared to the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$18.86 to \$21.19 per square foot of living area. The subject's per square foot improvement assessment of \$22.30 falls above the range established by these properties. The Board finds the board of review's comparables less similar to the subject in improvement size, class and/or type of construction.

After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
