

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Joseph Calandra
DOCKET NO.: 04-24220.001-R-1
PARCEL NO.: 04-36-200-042-0000

The parties of record before the Property Tax Appeal Board are Joseph Calandra, the appellant, by attorney Joanne P. Elliott of Elliott & Associates in Des Plaines, and the Cook County Board of Review.

The subject property consists of a four-year-old, two-story, single-family dwelling of frame and masonry construction containing 5,396 square feet of living area and located in Northfield Township, Cook County. Features of the home include three and one-half bathrooms, a partial-finished basement, air-conditioning, two fireplaces and a three-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story, single-family dwellings of frame, masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,141 to 7,858 square feet of living area and range in age from four to sixty-six years. The comparables contain from four to six and one-half bathrooms, a finished or unfinished basement, from two to four fireplaces, air-conditioning and a multi-car garage. The improvement assessments range from \$17.80 to \$18.69 per square foot of living area. Based on the evidence submitted,

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 37,736
IMPR.: \$ 120,853
TOTAL: \$ 158,589

Subject only to the State multiplier as applicable.

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$158,589. The subject's improvement assessment is \$120,853 or \$22.40 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame and masonry construction located within the same survey block as the subject. The improvements range in size from 2,920 to 6,733 square feet of living area and range in age from 41 to 75 years. The comparables contain from three and one-half to five and one-half bathrooms, a two-car attached garage, from one to four fireplaces, air-conditioning and a finished or unfinished basement. The improvement assessments range from \$22.29 to \$23.12 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

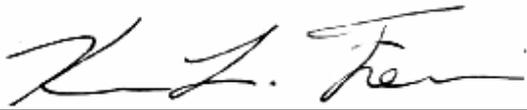

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of nine properties somewhat similar to the subject but with many variations in living area, construction and/or age. These nine properties have improvement assessments ranging from \$17.80 to \$23.12 per square foot of living area. The subject's per square foot improvement assessment of \$22.40 falls within the range established by these properties. The Board finds of the nine comparables offered by the parties, five vary substantially from the subject in size of living area, four vary in construction and seven vary significantly in age. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's assessment. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
