

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Francis Joseph
DOCKET NO.: 04-24241.001-R-1
PARCEL NO.: 09-13-214-016-0000

The parties of record before the Property Tax Appeal Board are Francis Joseph, the appellant, by attorney Rusty A. Payton of Chicago and the Cook County Board of Review.

The subject property consists of a 7,500 square foot parcel improved with a 48-year-old, multi-level style single-family dwelling of frame and masonry construction containing 1,073 square feet of living area located in Maine Township, Cook County. The improvement features are one and one-half baths, a finished partial basement, air conditioning and a one-car garage.

The appellant, through counsel, submitted evidence to the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same general area as the subject. These properties consist of multi-level style single-family dwellings of frame and masonry construction from 46 to 49 years old. Ranging in size from 1,212 to 1,325 square feet of living area, the comparables feature one full bath and partial unfinished basements; and three have additional half-baths. The comparables have improvement assessments ranging from \$16.58 to \$17.95 per square foot of living area. A copy of the subject's 2004 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$22,010, or \$20.51 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties located on the same street within one block of the subject. The comparables consist of 48-year-old, multi-level style single-family dwellings of frame and masonry construction. The comparables contain 1,073 square feet of living area and feature two full baths, partial

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.:	\$	22,010
TOTAL:	\$	28,310

finished basements; two have air conditioning; one has a fireplace; and one has a one-car garage. These properties have improvement assessments ranging from \$20.74 to \$21.41 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board accords substantial weight to the properties submitted by the board of review. The Board finds that the board of review's properties are the same size as the subject and are located on the same street within one block of the subject. Further, the Board finds that these properties have amenities commensurate with the subject's amenities. The Board accords the appellant's properties substantially less weight. The Board finds that the appellant's comparables are superior in size and overall are inferior in amenities when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$20.51 is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
