

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: George Logan  
DOCKET NO.: 04-24305.001-R-1  
PARCEL NO.: 04-14-200-091-0000

The parties of record before the Property Tax Appeal Board are George Logan, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C., Chicago, and the Cook County Board of Review.

The subject property consists of a 38-year-old, two-story, single-family dwelling of frame and masonry construction containing 2,895 square feet of living area and located in Northfield Township, Cook County. Features of the residence include two and one-half bathrooms, a full-unfinished basement, air-conditioning, two fireplaces and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of frame and masonry construction located within the subject's neighborhood. The improvements range in size from 2,824 to 3,538 square feet of living area and range in age from 38 to 50 years. The comparables contain three, three and one-half or four full bathrooms, one or two fireplaces and a multi-car attached garage. Two comparables contain a partial-finished basement and two comparables have air-conditioning. The improvement assessments range from \$17.66 to \$21.30 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$92,848.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 29,228  
IMPR.: \$ 63,620  
TOTAL: \$ 92,848

Subject only to the State multiplier as applicable.

The subject's improvement assessment is \$63,620 or \$21.98 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry construction located within the same survey block as the subject. The improvements range in size from 2,972 to 3,909 square feet of living area and range in age from 35 to 38 years. The comparables contain three and one-half or four full bathrooms, a full-finished or unfinished basement, air-conditioning, one or two fireplace and a multi-car garage. The improvement assessments range from \$22.25 to \$23.83 per square foot of living area.

In rebuttal, the appellant's attorney submitted a one-page letter highlighting various differences between the subject and the board of review's comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables one and two and the board of review's comparables one, two and three to be the most similar properties to the subject in improvement size, design, amenities, location and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$17.66 to \$23.83 per square foot of living area. The subject's improvement assessment of \$21.98 per square foot of living area is within this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
