

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Nancy Tordai  
DOCKET NO.: 04-24718.001-R-1  
PARCEL NO.: 09-22-418-027

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Nancy Tordai, the appellant, by Attorney Gary H. Smith in Chicago; and the Cook County Board of Review.

The subject property consists of 7,740 square foot parcel improved with a 44-year old, multi-level, frame and masonry, single-family dwelling. The improvement contains 1,435 square feet of living area as well as a partial basement, two bathrooms, central air conditioning, and a two-car garage.

At hearing, the appellant argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal. Further, the parties jointly requested that the PTAB render a decision in this matter based upon the written evidentiary submissions.

The appellant's pleadings included data and descriptions of five suggested comparables located within the subject's neighborhood. These properties are improved with a multi-level, single-family dwelling of frame or frame and masonry exterior construction and with two full and one half-bath. They range: in age from 42 to 46 years; in size from 1,608 to 1,789 square feet of living area; and in improvement assessments from \$20.15 to \$22.63 per square foot. Amenities include a partial basement and garage area, therein. On the basis of this comparison, the appellant's attorney requested an assessment reduction.

The board of review submitted "Board of Review Notes on Appeal" wherein the board's final assessment decision was presented reflecting an improvement assessment of \$33,007 or \$23.00 per square foot. The board of review also submitted copies of property characteristic printouts for the subject and four

suggested comparables. The properties contain a multi-level, frame and masonry, single-family dwelling. They range: in bathrooms from one full to two full baths; in age from 44 to 45 years; and in size from 1,057 to 1,435 square feet of living area. Amenities include a partial basement a garage area. The improvement assessments range from \$23.73 to \$33.89 per square foot. In addition, the board submitted copies of its file from the board of review's level appeal. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. The PTAB finds that the appellant has not met this burden and that a reduction in the subject's assessment is not warranted.

In totality, the parties submitted nine equity comparables. The PTAB finds that the appellant's comparable #3 and #4 as well as the board of review's comparable #1 are most similar to the subject property. These three comparables contain a multi-level, frame and masonry, single-family dwelling. They range: in age from 44 to 46 years; in size from 1,435 to 1,608 square feet of living area; and in improvement assessments from \$22.01 to \$23.73 per square foot. In comparison, the subject's 1,435 square foot improvement contains an assessment at \$23.00 per square foot of living area, which is within the range established by these comparables.

The PTAB further finds that the parties' remaining properties were accorded diminished weight due to a disparity in improvement size.

On the basis of the evidence submitted, the PTAB finds that the evidence has not demonstrated that the subject's improvement is assessed in excess of that which equity dictates. Therefore, the PTAB finds that a reduction in the subject's improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
