

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Angelo DiPaolo & Ken Waltz  
DOCKET NO.: 04-24819.001-R-1  
PARCEL NO.: 04-26-200-141-0000

The parties of record before the Property Tax Appeal Board are Angelo DiPaolo & Ken Waltz, the appellants, by attorney Edward P. Larkin of Park Ridge, and the Cook County Board of Review.

The subject property consists of a 47-year-old, one-story, single-family dwelling of frame and masonry construction containing 2,043 square feet of living area and located in Northfield Township, Cook County. Features of the residence include two and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a two and one-half car attached garage.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellants' documents, the three suggested comparables consist of one-story, single-family dwellings of frame or frame and masonry construction located within the same Sidwell Block as the subject. The improvements range in size from 3,084 to 3,428 square feet of living area and range in age from 47 to 51 years. The comparables contain two, three or three and one-half bathrooms and a partial-finished basement. Two comparables have air-conditioning, multiple fireplaces and a multi-car attached garage. The improvement assessments range from \$13.22 to \$16.95 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$62,154. The subject's improvement assessment is \$42,988 or \$21.04 per square foot of living area. In support of the assessment the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 19,166  
IMPR.: \$ 42,988  
TOTAL: \$ 62,154

Subject only to the State multiplier as applicable.

board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story or one and one-half story, single-family dwellings of masonry or frame and masonry construction located within the same Sidwell Block as the subject. The improvements range in size from 2,309 to 2,636 square feet of living area and range in age from 47 to 50 years. The comparables contain two or four full bathrooms, two fireplaces, air-conditioning, a two-car or three-car garage and a finished or unfinished basement. The improvement assessments range from \$21.45 to \$23.29 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellants' attorney submitted a one-page letter highlighting various differences between the subject and the board of review's comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are more similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$21.45 to \$23.29 per square foot of living area. The subject's per square foot improvement assessment of \$21.04 falls below the range established by these properties. The Board finds the appellants' comparables differ significantly from the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
