

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Ken & Mary Gladkowski
DOCKET NO.: 04-24857.001-R-1
PARCEL NO.: 27-09-312-008-0000

The parties of record before the Property Tax Appeal Board are Ken and Mary Gladkowski, the appellants, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with an 18-year old, two-story dwelling of masonry construction containing 3,824 square feet of living area with a full unfinished basement, central air conditioning, two fireplaces, and a three car attached garage.

The appellants' appeal is based on unequal treatment in the assessment process. In support of this argument the appellants submitted information on four comparable properties described as two-story masonry or frame and masonry dwellings that range in age from 7 to 41 years old for consideration. The comparables range in size from 4,279 to 4,451 square feet of living area. Each comparable has a basement, central air conditioning and a fireplace. Photographs depict three of the comparables as having either a two or a three-car attached garage. These properties have improvement assessments ranging from \$6.06 to \$7.80 per square foot of living area. The subject's improvement assessment is \$9.44 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story masonry or frame and masonry dwellings that range in age from 19 to 21 years old. The dwellings range in size from 3,038 to 3,281 square feet of living area. Each comparable has a partial or full unfinished basement, central air conditioning, one or three fireplaces and either a two or three-car attached garage. These properties have improvement assessments ranging

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	7,569
IMPR.:	\$	36,107
TOTAL:	\$	43,676

Subject only to the State multiplier as applicable.

from \$9.68 to \$10.46 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

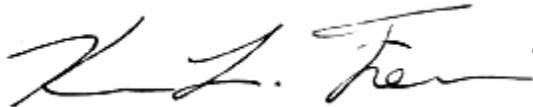

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

The Board finds the comparables 3 and 4 submitted by the appellants and the comparables submitted by the board of review were most similar to the subject in features and age. Due to these similarities to the subject, these comparables received the most weight in the Board's analysis. The appellants' first two comparables received little weight due to differences from the subject in age. The Board recognizes that none of the remaining comparables were particularly similar to the subject in size with the appellants' comparables being larger than the subject and the board of review's comparables be smaller than the subject. These comparables had improvement assessments that ranged from \$7.27 to \$10.46 per square foot of living area. The subject's improvement assessment of \$9.44 per square foot of living area is within this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
