

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jerry Chez  
DOCKET NO.: 04-24897.001-R-1  
PARCEL NO.: 05-08-101-041-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Jerry Chez, the appellant, by attorney Thomas M. Battista of Rock, Fusco & Associates, LLC of Chicago and the Cook County Board of Review (board).

The subject property consists of a 50-year-old, two-story single-family dwelling of masonry construction containing 3,584 square feet of living area and located in New Trier Township, Cook County. The residence contains two and one half bathrooms, a finished partial basement, air conditioning, fireplaces and a two-car garage.

The appellant's counsel appeared before the PTAB and submitted evidence claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within two blocks of the subject. These properties consist of two-story single-family dwellings of masonry construction and range in age from 37 to 55 years. The comparables have three or four bathrooms and full basements, fireplaces; all have air conditioning and two-car garages. The comparables contain between 3,216 and 3,783 square feet of living area and have improvement assessments ranging from \$73,514 to \$88,428 or from \$21.34 to \$26.51 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$106,596, or \$29.74 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered four suggested comparable properties located within two blocks of the subject. The comparables consist of two-story single-family dwellings of frame

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 33,060  
IMPR. \$ 96,940  
TOTAL: \$130,000

or frame and masonry construction and range in age from 19 to 52 years. The comparables contain two or three bathrooms with some half baths; three have full or partial basements, two finished, three with air conditioning, all with fireplaces and two-car garages. The comparables contain between 2,215 and 3,476 square feet of living area and have improvement assessments of between \$87,443 and \$128,200 or from \$36.88 to \$39.48 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After hearing the testimony and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has overcome this burden.

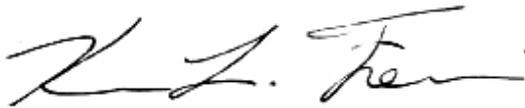

The PTAB finds the appellant's three comparables are the comparables more similar to the subject. These properties have improvement assessments ranging from \$21.34 to \$26.51 per square foot of living area. The subject's per square foot improvement assessment of \$29.74 is above this range of properties. The PTAB gives less weight to the board's four comparables because they are less similar to the subject in construction or age or living area and some appear to be Lakefront properties. After considering adjustments and the differences in the suggested comparables when compared to the subject property, the PTAB finds the evidence is sufficient to effect a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
