

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Scott Samuelsohn
DOCKET NO.: 04-24901.001-R-1
PARCEL NO.: 04-06-304-012-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Scott Samuelsohn, the appellant, by attorney Glenn Guttman of Reiff Schramm & Kanter of Chicago and the Cook County Board of Review (board).

The subject property consists of a 36-year-old, two-story single-family dwelling of masonry construction containing 2,508 square feet of living area and located in Northfield Township, Cook County. The residence contains two bathrooms, a full basement, air conditioning, a fireplace and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered 12 suggested comparable properties located within a quarter mile of the subject. These properties consist of two-story single-family dwellings of masonry, frame or frame and masonry construction and range in age from 30 to 36 years. The comparables have two bathrooms, most with half-baths and 11 have full basements, some finished. The homes are air-conditioned and all have fireplaces. All have two-car garages. The comparables contain between 2,420 and 2,736 square feet of living area and have improvement assessments ranging from \$32,046 to \$46,922 or from \$12.57 to \$17.19 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$50,025, or \$19.95 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered two suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story single-family dwellings of frame and masonry or masonry construction and are 21 years old. The comparables contain two bathrooms, full basements; both have air conditioning, one has a fireplace and both have two-car garages. The comparables contain 2,025 and 2,026 square feet of living

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,149
IMPR. \$45,851
TOTAL: \$58,000

area and have improvement assessments of \$41,359 and \$49,176 or \$18.07 and \$20.42 per square foot of living area. The board also disclosed the subject was purchased in September 2002 for \$745,000. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has overcome this burden.

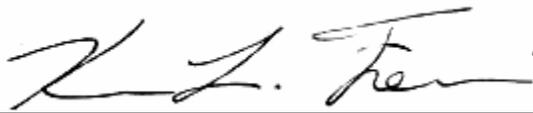

The PTAB finds the appellant's comparables are more similar to the subject, especially comparables four and 11. The remaining comparables are also similar but with differences in living area and construction materials to be adjusted to conform to the subject. These 12 properties have improvement assessments ranging from \$12.57 to \$17.19 per square foot of living area. The subject's per square foot improvement assessment of \$19.95 is above this range of properties. The PTAB gives less weight to the board's comparables because they are less similar to the subject in living area. After considering the purchase price and the differences and similarities in the suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is sufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
