

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Kathy Park
DOCKET NO.: 04-24986.001-R-1
PARCEL NO.: 04-33-115-008-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Kathy Park, the appellant, by attorney Stephanie Park of Stephanie Park, PC of Chicago and the Cook County Board of Review (board).

The subject property consists of a 29-year-old, one-story single-family dwelling of frame construction containing 2,026 square feet of living area and located in Northfield Township, Cook County. The residence contains two and one-half bathrooms, a partial basement, air conditioning and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered eight suggested comparable properties located within a quarter mile of the subject. These properties consist of one or one and part two-story single-family dwellings of masonry, frame or frame and masonry construction and range in age from 10 to 80 years. The comparables have one or two bathrooms with some half-baths and four have full or partial basements. Five homes are air-conditioned and five have fireplaces. The comparables have one or two-car garages. The comparables contain between 1,873 and 2,188 square feet of living area and have improvement assessments ranging from \$30,442 to \$36,100 or from \$15.45 to \$16.32 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$35,527, or \$17.54 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered four suggested comparable properties located within a quarter mile of the subject. The comparables consist of one-story single-family dwellings of frame or masonry construction and range in age from 29 to 46 years. The comparables contain one or two bathrooms, most with half-baths, full or partial basements; three have air conditioning, three have fireplaces and three have two-car garages. The

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,473
IMPR.: \$33,527
TOTAL: \$42,000

Subject only to the State multiplier as applicable.

comparables range in size from 1,828 to 2,200 square feet of living area and have improvement assessments of between \$33,440 and \$39,285 or from \$17.37 to \$19.35 per square foot of living area. The board also disclosed the subject was purchased in September 2004 for \$440,000. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has overcome this burden.

The PTAB finds both parties submitted a total of 12 suggested comparables that are similar to the subject with various improvement differences. The PTAB finds the appellant's comparables two, four, six and eight are the comparables more similar to the subject with the least differences. These properties have improvement assessments ranging from \$15.90 to \$16.32 per square foot of living area. The subject's per square foot improvement assessment of \$17.34 is above this range of properties. The PTAB gives less weight to the eight remaining comparables because they are less similar to the subject in living area, age or construction materials. After considering adjustments for the differences in the suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is sufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
