

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Walter T. Paczko
DOCKET NO.: 04-25291.001-R-1
PARCEL NO.: 08-12-211-014-0000

The parties of record before the Property Tax Appeal Board are Walter T. Paczko, the appellant, and the Cook County Board of Review.

The subject property consists of a 57-year-old, two-story, single-family dwelling of frame and masonry construction containing 1,626 square feet of living area and situated on an 7,680 square foot parcel. Features of the home include one and one-half bathrooms, a partial-unfinished basement, air-conditioning, a fireplace and a one-car attached garage. The subject is located in Elk Grove Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of frame and masonry construction. The improvements range in size from 1,606 to 1,844 square feet of living area and range in age from 43 to 55 years. The comparables contain one and one-half or two full bathrooms and a one-car or two-car detached garage. One comparable contains a full-unfinished basement and three comparables have air-conditioning. The improvement assessments range from \$12.44 to \$12.56 per square foot of living area. Based on the evidence submitted, the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,836
IMPR.: \$ 22,520
TOTAL: \$ 28,356

Subject only to the State multiplier as applicable.

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$28,356. The subject's improvement assessment is \$22,520 or \$13.84 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,516 to 1,639 square feet of living area and range in age from 50 to 53 years. The comparables contain one and one-half, two or two and one-half bathrooms, a partial or full-finished basement and a one-car or two-car garage. One comparable has air-conditioning and one comparable has a fireplace. The improvement assessments range from \$14.14 to \$14.61 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. These seven properties have improvement assessments ranging from \$12.44 to \$14.61 per square foot of living area. The subject's per square foot improvement assessment of \$13.84 falls within the range established by these properties. In addition, the subject's per square foot improvement assessment is lower than three of the seven properties offered for comparison. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
