

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Keith Wilhelm
DOCKET NO.: 04-25354.001-R-1
PARCEL NO.: 06-21-407-014-0000

The parties of record before the Property Tax Appeal Board are Keith Wilhelm, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with an 11-year old, two-story dwelling of frame construction containing 2,030 square feet of living area with a full unfinished basement, central air conditioning and a two-car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. In support of this argument the appellant submitted assessment information and copies of photographs on five comparable properties. The first four comparables were described as two-story dwellings of frame construction that were 9 or 10 years old for consideration. Each of these comparables was described as having a partial basement, central air conditioning and a fireplace. The appellant provided a limited description on the remaining comparable such as property index number, classification code, neighborhood code assessment information, living area and building assessment per square foot. The five comparables ranged in size from 2,185 to 2,364 square feet of living area and have improvement assessments ranging from \$8.01 to \$8.39 per square foot of living area. The subject's improvement assessment is \$10.57 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that were 11 years old. The comparables were located along the same street and within the same block as the subject. Each of the dwellings had 2,030 square feet of living

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	5,820
IMPR.:	\$	21,462
TOTAL:	\$	27,282

area and similar features as the subject. These properties have improvement assessments ranging from \$10.67 to \$10.97 per square foot of living area. The board of review also presented information disclosing the subject property was purchased in February 2004 for a price of \$284,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

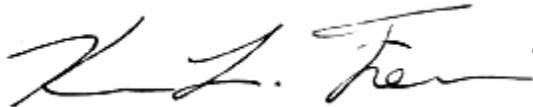

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in location, size and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$10.67 to \$10.97 per square foot of living area. The subject's improvement assessment of \$10.57 per square foot of living area is below this range. The board of review also reported the subject sold in February 2004 for a price of \$284,000. The subject's assessment is also supported by the purchase price when utilizing the 2004 three year median level of assessments for class 2 property of 9.99% as determined by the Illinois Department of Revenue. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
