

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Keith Eng
DOCKET NO.: 04-25728.001-R-1
PARCEL NO.: 17-33-305-026-0000

The parties of record before the Property Tax Appeal Board are Keith Eng, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a seven-year old, two-story masonry townhouse containing 1,844 square feet of living area with a partial, finished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, the comparables are located in the same general area as the subject. According to the appellant's grid analysis, the comparables are two-story masonry dwellings that are five to 11 years old. Each comparable has an unfinished basement. Three comparables have central air conditioning. The dwellings have living areas that contain 1,793 to 2,020 square feet, and their improvement assessments range from \$11.67 to \$12.35 per square foot. The subject property has an improvement assessment of \$14.60 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing two suggested comparable properties that are located in the same tax block as the subject. The comparables are two-story masonry

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	2,237
IMPR.:	\$	26,738
TOTAL:	\$	28,975

dwellings that are seven years old. The comparables have partial, unfinished basements, central air conditioning, and a two-car garage. The dwellings have living areas that contain 1,844 square feet, and improvement assessments of \$14.49 or \$14.50 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

Both parties presented assessment data on a total of six equity comparables. The appellant's comparables were similar to the subject, in age and physical characteristics, but the board of review's comparables were almost identical to the subject in location, age, and physical characteristics. These comparables had improvement assessments of \$14.49 and \$14.50 per square foot. However, the subject's improvement assessment of \$14.60 per square foot falls above the level established by these comparables. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is not supported by the most comparable properties contained in the record and a reduction in the subject's assessment is warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
