

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: James Cook
DOCKET NO.: 04-25781.001-R-1
PARCEL NO.: 05-33-111-022-0000

The parties of record before the Property Tax Appeal Board are James Cook, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a six-year old, two-story frame and masonry dwelling containing 3,116 square feet of living area with a full, finished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. Seven comparables were plotted on the appellant's map, but only four were included on the grid analysis. The four comparables listed on the grid analysis are located approximately one-quarter to one-half mile from the subject. The comparables are two-story frame and masonry dwellings that are 38 to 43 years old. Two comparables have unfinished basements; one has a full basement; and one has a partial basement. Each has central air conditioning and a fireplace. The dwellings have living areas that contain 2,586 to 3,680 square feet, and their improvement assessments range from \$16.88 to \$18.25 per square foot. The subject property has an improvement assessment of \$22.63 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered

TOTAL:	\$	83,008

property characteristic sheets and a spreadsheet detailing three suggested comparable properties. One of the comparables is located in the same tax block as the subject, and the other two are located near the subject. The comparables are two-story frame, masonry, or frame and masonry dwellings that are four years old. Two comparables have full, finished basements, and one has a partial, finished basement. Each comparable has central air conditioning, one or two fireplaces, and a garage, either one-car or two-car. The dwellings have living areas that contain 3,456 to 3,546 square feet, and improvement assessments ranging from \$24.58 to \$30.51 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

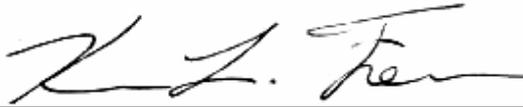

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables differed significantly from the subject in age and received reduced weight in the Board's analysis. The board of review's comparables were the most similar to the subject in age, location, and physical characteristics. These comparables had improvement assessments of \$24.58 to \$30.51 per square foot that support the subject's improvement assessment of \$22.63 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record, and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
