

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Mark & LaKesha Yates  
DOCKET NO.: 04-25784.001-R-1  
PARCEL NO.: 16-23-104-003-0000

The parties of record before the Property Tax Appeal Board are Mark & LaKesha Yates, the appellants, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 91-year old, two-story masonry dwelling containing 3,174 square feet of living area with a full, finished basement apartment, a fireplace, and a one-car garage.

The appellants submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of their appeal. In support of the equity argument, the appellants submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, the comparables are located approximately one-half to one mile from the subject. According to the appellants' grid analysis, the comparables are three-story masonry dwellings that are 78 to 102 years old. Three comparables have unfinished basements, and one has a full basement. The dwellings have living areas that contain 3,807 to 7,269 square feet, and their improvement assessments range from \$1.07 to \$2.02 per square foot. The subject property has an improvement assessment of \$3.67 per square foot. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties. One of the comparables is located in the same tax block as the subject, and the other two are located near the subject. The comparables are two-story or

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

TOTAL:	\$	13,278

three-story masonry dwellings that are 80 to 100 years old. Each has a two-car garage. Two have full, finished basement apartments, and one has a full, unfinished basement. The dwellings have 2,956 to 3,012 square feet of living area, and improvement assessments ranging from \$3.77 to \$3.95 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

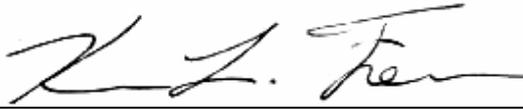

Both parties presented assessment data on a total of seven equity comparables. The appellants' comparables differed from the subject in location, size, and design, and, as a result, received reduced weight in the Board's analysis. The board of review's comparable one differed in design from the subject and also received reduced weight. The board of review's comparables two and three were the most similar to the subject in age, location, and most physical characteristics. These comparables had improvement assessments of \$3.77 and \$3.91 per square foot that support the subject's improvement assessment of \$3.67 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record, and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
