

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Tim Treger  
DOCKET NO.: 04-25789.001-R-1  
PARCEL NO.: 14-32-221-025-0000

The parties of record before the Property Tax Appeal Board are Tim Treger, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 117-year old, two-story multi-family masonry dwelling containing 2,200 square feet of living area with a full, unfinished basement and central air conditioning.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. Seven comparables were plotted on the appellant's map, but only four were included on the grid analysis. The four comparables listed on the grid analysis are located five to seven blocks from the subject. The comparables are two-story or three-story masonry or frame and masonry dwellings that are 84 to 120 years old. Two comparables have full basements, and two have unfinished basements. Two comparables have central air conditioning and fireplaces. The dwellings have living areas that contain 2,400 to 2,736 square feet, and their improvement assessments range from \$19.20 to \$19.56 per square foot. The subject property has an improvement assessment of \$28.53 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	15,904
IMPR.:	\$	62,773
TOTAL:	\$	78,677

Subject only to the State multiplier as applicable.

suggested comparable properties that are located six to seven blocks from the subject. The comparables are two-story masonry dwellings that are 115 to 122 years old. Each comparable has a full, unfinished basement. Two comparables have a fireplace and a garage, either two-car or two and one-half car. The dwellings have living areas that contain 1,748 or 1,760 square feet and improvement assessments ranging from \$32.68 to \$34.05 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. All of the comparables were located in the same area approximately five to seven blocks from the subject. The appellant's comparable one differed significantly in age from the subject, and comparable two differed in design and exterior construction from the subject. As a result, these two comparables received reduced weight in the Board's analysis. The appellant's comparables three and four and the board of review's comparables were almost identical to the subject in age, location, and physical characteristics. These comparables had improvement assessments of \$19.56 to \$34.05 per square foot that support the subject's improvement assessment of \$28.53 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record, and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
