

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Martin Hartley
DOCKET NO.: 04-25843.001-R-1
PARCEL NO.: 13-36-425-017-0000

The parties of record before the Property Tax Appeal Board are Martin Hartley, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a four-year old, two-story frame dwelling containing 2,052 square feet of living area with a full, finished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, the comparables are located two to six blocks from the subject. The comparables are two-story frame or stucco dwellings that are one to six years old. Three comparables have unfinished basements, and one does not have a basement. Each comparable has central air conditioning, and three have fireplaces. The dwellings have living areas that contain 2,052 to 2,327 square feet, and their improvement assessments range from \$10.20 to \$16.90 per square foot. The subject property has an improvement assessment of \$19.68 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties. One is located in the same tax block as the subject, and the other two are located in close

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	3,206
IMPR.:	\$	40,390
TOTAL:	\$	43,596

Subject only to the State multiplier as applicable.

proximity of the subject. The comparables are two-story frame dwellings that are four years old. Two of the comparables have full, unfinished basements, and one has a full, finished basement. Each of the comparables has central air conditioning, a fireplace, and a two-car garage. The dwellings have living areas that contain 2,052 square feet and improvement assessments of \$19.67 or \$19.68 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparable one differed in exterior construction and foundation from the subject and received reduced weight in the Board's analysis. The appellant's comparable two was larger than the subject and also received reduced weight. The appellant's comparables three and four and the board of review's comparables were almost identical to the subject in age, location, and physical characteristics. These comparables had improvement assessments of \$15.23 to \$19.68 per square foot that support the subject's improvement assessment of \$19.68 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record, and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
