

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Curtis Hagler
DOCKET NO.: 04-25845.001-R-1
PARCEL NO.: 16-03-426-048-0000

The parties of record before the Property Tax Appeal Board are Curtis Hagler, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 43-year old, one-story frame dwelling containing 1,064 square feet of living area with a slab foundation and a one-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. Seven comparables were plotted on the appellant's map, but only four were included on the grid analysis. On the appellant's map, two of the comparables are located two to four blocks from the subject, and two are located approximately one-half mile from the subject. The comparables are one-story frame or masonry dwellings that are 44 to 105 years old. One comparable has an unfinished basement, and three do not have basements. The dwellings have living areas that contain 1,012 to 1,221 square feet, and they have improvement assessments of \$6.56 or \$6.79 per square foot. The subject property has an improvement assessment of \$9.70 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties that are located in the same tax

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	2,943
IMPR.:	\$	10,321
TOTAL:	\$	13,264

Subject only to the State multiplier as applicable.

block as the subject. The comparables are one-story frame dwellings that are 45 years old. Each of the comparables has a slab foundation, and one comparable has a one-car garage. The dwellings have living areas that contain 936 or 1,044 square feet and improvement assessments ranging from \$10.17 to \$11.68 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables one and three differed from the subject in location; comparables one, two, and three differed substantially in age from the subject; and comparable four differed in exterior construction and foundation. As a result, the appellant's comparables received reduced weight in the Board's analysis. The board of review's comparables were the most similar in age, location, and physical characteristics. Located in the same tax block as the subject, these comparables had improvement assessments of \$10.17 to \$11.68 per square foot that support the subject's improvement assessment of \$9.70 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record, and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
