

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Bruce Wochinski
DOCKET NO.: 04-25985.001-R-1
PARCEL NO.: 09-35-225-007-0000

The parties of record before the Property Tax Appeal Board are Bruce Wochinski, the appellant, by attorney Edward Larkin of Park Ridge and the Cook County Board of Review.

The subject property consists of an 88-year-old, two-story style single-family dwelling of frame construction containing 3,275 square feet of living area and located in Maine Township, Cook County. Amenities include three full baths, one half bath, a partial basement, a fireplace and a two-car garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of frame construction from 106 to 121 years old. The comparable dwellings contain two or three full baths, and basements; additionally one has a fireplaces and a garages; and two have half baths. The comparables range in size from 2,552 to 3,744 square feet of living area and have improvement assessments ranging from \$3.70 to \$14.57 per square foot of living area. A copy of the subject's 2004 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$48,742, or \$14.88 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located within two

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	11,449
IMPR.:	\$	48,742
TOTAL:	\$	60,191

Subject only to the State multiplier as applicable.

blocks of the subject. The comparables consist of two-story style single-family dwellings of frame construction from 85 to 100 years old. The comparables contain one or two full baths, half baths, basements and have garages; one has air conditioning and a fireplace. These properties range in size from 2,516 to 3,354 square feet of living area and have improvement assessments ranging from \$15.18 to \$16.30 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board finds that when compared to the subject the board of review's comparables and the appellant's comparables one and three are the most similar to the subject. However, the Board also finds that five of the properties are smaller than the subject and one is slightly larger than the subject. The Board finds that these properties have improvement assessments ranging from \$9.81 to \$16.30 per square foot of living area. The subject's per square foot assessment of \$14.88 should be and is within the range of the properties found the most similar. After considering adjustments and the differences, particularly in size and age, of the parties' comparables, the Board finds the subject's per square foot improvement assessment is supported by the properties in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
