

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Rochelle Schittino
DOCKET NO.: 04-26008.001-R-1
PARCEL NO.: 09-22-412-020-0000

The parties of record before the Property Tax Appeal Board are Rochelle Schittino, the appellant, by attorney Edward Larkin of Larkin & Larkin, Park Ridge, Illinois; and the Cook County Board of Review.

The subject property consists of a 28-year old, multi-level style dwelling of masonry construction containing 1,688 square feet of living area with a full, finished basement, central air conditioning, a fireplace and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing three suggested comparable properties located in the same neighborhood as the subject property. The comparables are multi-level frame and masonry dwellings that are 44 years old. They have full or partial basements, with two having finished area, one has central air conditioning and they all have garages. The comparables contain from 1,788 to 2,004 square feet of living area and have improvement assessments ranging from \$17.35 to \$17.80 per square foot. The subject property has an improvement assessment of \$22.35 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing three suggested comparable properties located in the same neighborhood as the subject property. The comparable properties consist of multi-level masonry or frame and masonry dwellings that are from 27 to 47 years old. They have partial finished basements, central air conditioning, fireplaces and garages. The dwellings contain from 1,260 to 1,643 square feet of living area and have improvement assessments ranging from \$22.83 to \$26.46

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	7,713
IMPR.:	\$	37,737
TOTAL:	\$	45,450

Subject only to the State multiplier as applicable.

per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted.

The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of six equity comparables. The appellant's comparables and the board of review's comparable three differed from the subject in exterior construction and received reduced weight in the Board's analysis. The remaining comparables were similar to the subject in location and physical characteristics. They had improvement assessments of \$22.83 and \$22.97 per square foot. The subject's \$22.35 per square foot improvement assessment is below these assessments. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
