

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Michael Silverstein
DOCKET NO.: 04-26108.001-R-1
PARCEL NO.: 05-08-302-016-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Michael Silverstein, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C., Chicago, and the Cook County Board of Review (board).

The subject property consists of a nine-year-old, two-story, single-family dwelling of masonry construction containing 6,542 square feet of living area and located in New Trier Township, Cook County. Features of the residence include three full bathrooms, four half-baths, a full-finished basement, air-conditioning, two fireplaces and a three-car attached garage.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of stucco or masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,458 to 6,872 square feet of living area and range in age from four to seven years. The comparables contain from three to six and one-half bathrooms, a full-finished or unfinished basement, air-conditioning, from one to four fireplaces and a three-car attached garage. The improvement assessments range from \$17.60 to \$20.00 per square foot of living area.

At hearing, the appellant's attorney argued that the appellant's comparables are located within one-half mile of the subject. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 48,200
IMPR.: \$ 150,980
TOTAL: \$ 199,180

Subject only to the State multiplier as applicable.

PTAB/rfd6175

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$199,180. The subject's improvement assessment is \$150,980 or \$23.08 per square foot of living area. In support of the assessment, the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The three suggested comparables are improved with two-story, four-year-old, single-family dwellings of masonry construction located within three blocks of the subject. The improvements range in size from 5,057 to 6,244 square feet of living area. The comparables contain from two and one-half to five and one-half bathrooms, a full-finished basement, air-conditioning, two or six fireplaces and a three-car attached garage. The improvement assessments range from \$34.86 to \$43.87 per square foot of living area.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney highlighted various differences between the subject and the board of review's comparables.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables two and three and the board of review's comparables one and three to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, age, amenities and location and have improvement assessments ranging from \$19.00 to \$43.87 per square foot of living area. The subject's per square foot improvement assessment of \$23.08 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size and/or exterior construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

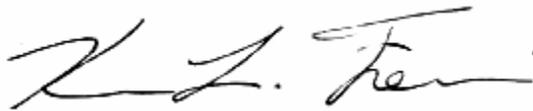

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
