

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Patricia Brophy
DOCKET NO.: 04-26240.001-R-1
PARCEL NO.: 05-18-211-016-0000

The parties of record before the Property Tax Appeal Board are Patricia Brophy, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, Chicago, and the Cook County Board of Review.

The subject property consists of an 81-year-old, two-story style single-family dwelling of frame construction containing 1,703 square feet of living area and located in New Trier Township, Cook County. Amenities include two full baths, one half-bath, a full basement, a fireplace and a one-car garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of frame, stucco, or frame and masonry construction from 76 to 91 years old. All of the comparable dwellings contain two full baths, basements, fireplaces and have garages; one also has a half-bath and air conditioning. The comparables range in size from 1,936 to 2,172 square feet of living area and have improvement assessments ranging from \$14.45 to \$23.38 per square foot of living area. A copy of the subject's 2004 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$51,283, or \$30.12 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	16,637
IMPR.:	\$	40,000
TOTAL:	\$	56,637

Subject only to the State multiplier as applicable.

detailing one suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparable consists of a 65-year old, two-story style single-family dwelling of frame construction consisting of one full bath, a basement, two fireplaces and a garage. This has an improvement assessment of \$39.34 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

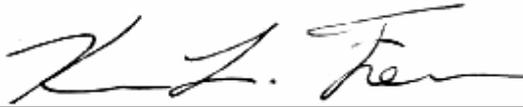

The Property Tax Appeal Board places the primary weight on the appellant's comparables. These properties are similar in most aspects when compared to the subject. The Board places lesser weight on the board of review's comparable due its age when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is not supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
