

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Lloyd E. Williams, Jr.  
DOCKET NO.: 04-26272.001-R-1  
PARCEL NO.: 05-27-104-014-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Lloyd E. Williams, Jr., the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C., Chicago, and the Cook County Board of Review (board).

The subject property consists of a 51-year-old, one and one-half story, single-family dwelling of masonry construction containing 4,618 square feet of living area. Features of the residence include three and one-half bathrooms, air-conditioning, three fireplaces and a two-car attached garage. The subject is built with crawl space and located in New Trier Township, Cook County.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs and printouts for the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of one-story or one and one-half story, single-family dwellings of masonry construction located within approximately one mile of the subject. The improvements range in size from 2,771 to 4,386 square feet of living area and range in age from 40 to 69 years. The comparables contain three or three and one-half bathrooms, a finished or unfinished basement, air-conditioning, two or three fireplaces and a multi-car garage. The improvement assessments range from \$15.95 to \$19.05 per square foot of living area.

At hearing, the appellant's attorney asserted that the appellant's comparables are similar to the subject and should be considered as such by the PTAB. Based on the evidence submitted,

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 45,500  
IMPR.: \$ 94,500  
TOTAL: \$ 140,000

Subject only to the State multiplier as applicable.

PTAB/rfd6138

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$163,183. The subject's improvement assessment is \$117,683 or \$25.48 per square foot of living area. In support of the assessment, the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,025 to 3,249 square feet of living area and range in age from 47 to 54 years. The comparables contain two or three full bathrooms, a finished or unfinished basement, one or two fireplaces and a two-car garage. Two comparables contain air-conditioning. The improvement assessments range from \$26.76 to \$27.53 per square foot of living area. The board's evidence disclosed that the subject was purchased in June 2003 for a price of \$1,675,000.

At hearing, the board's representative stated that the subject's assessed valuation is in line with the June 2003 purchase price of \$1,675,000 and that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables one, two and three to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design, exterior construction, age and location. They have improvement assessments ranging from \$15.95 to \$17.12 per square foot of living area. The subject's per square foot improvement assessment of \$25.48 falls above the range established by these properties. The board's comparables are accorded less weight because they are significantly smaller in size of living area as compared to the subject. After considering adjustments, the subject's recent purchase price as well as the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement

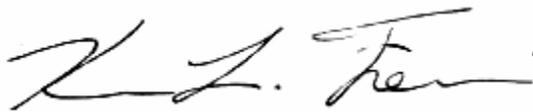

assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
