

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Othman & Nahil Akkawi
DOCKET NO.: 04-26357.001-R-1
PARCEL NO.: 27-17-312-033-0000

The parties of record before the Property Tax Appeal Board are Othman & Nahil Akkawi, the appellants, by attorney Lisa A Marino of Lisa Marino & Assoc., PC of Chicago of and the Cook County Board of Review.

The subject property consists of a six-year-old, two-story single-family dwelling of masonry construction containing 4,123 square feet of living area and located in Orland Township, Cook County. The residence contains three bathrooms, a full basement, air conditioning, a fireplace and a three-car garage.

The appellants, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellants offered four suggested comparable properties located two and four miles of the subject. These properties consist of two-story single-family dwellings of masonry or frame and masonry construction and range in age from seven to 24 years. The comparables have two or three bathrooms and full or partial basements, one finished. Three homes are air-conditioned; all have fireplaces and two or three-car garages. The comparables contain between 4,092 and 4,591 square feet of living area and have improvement assessments ranging from \$24,733 to \$31,030 or from \$5.94 to \$6.84 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$33,499, or \$8.12 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered four suggested comparable properties located within a block of the subject. The comparables consist of two-story single-family dwellings of masonry construction and range in age from three to seven years. The comparables contain two or four bathrooms with some half-baths, full basements; three have air conditioning, all have

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR. \$33,499
TOTAL: \$40,708

fireplaces and three-car garages. The comparables range in size from 3,274 to 4,505 square feet of living area and have improvement assessments of between \$30,578 and \$39,283 or from \$8.72 to \$9.66 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellants have failed to overcome this burden.

The PTAB finds the parties submitted a total of eight suggested comparables that are similar to the subject but with some considerable differences in location, building size, construction materials and age. These eight properties have improvement assessments ranging from \$5.94 to \$9.66 per square foot of living area. The subject's per square foot improvement assessment of \$8.12 is within this range of properties. The PTAB finds the board's comparables; especially comparables one and two are more similar to the subject. The PTAB gives less weight to the appellant's comparables because they are less similar to the subject especially in location, two to four miles distant. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellants failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
