

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robert Reichblum
DOCKET NO.: 04-26359.001-R-1
PARCEL NO.: 05-06-313-003-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Robert Reichblum, the appellant, by attorney Donald T. Rubin of Rubin & Norris of Chicago and the Cook County Board of Review (board).

The subject property consists of a 76-year-old, two-story single-family dwelling of frame construction containing 3,962 square feet of living area and located in New Trier Township, Cook County. The residence contains three and one-half bathrooms, a full basement, two fireplaces and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered six suggested comparable properties located within a quarter mile of the subject. These properties consist of two-story single-family dwellings of masonry, or frame construction and range in age from 64 to 116 years. The comparables have three, four or five bathrooms most with half-baths and full or partial basements, one finished. Four homes are air-conditioned and all have fireplaces. All comparable properties have two or three-car garages. The comparables contain between 4,279 and 4,949 square feet of living area and have improvement assessments ranging from \$91,950 to \$122,801 or from \$19.23 to \$28.70 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$131,012, or \$33.07 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered three suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story, class 2-06 and class 2-08 single-family dwellings of masonry construction and range in age from 4 to 76 years. The comparables contain three or four bathrooms, full or partial basements; all have air conditioning, fireplaces and all have two or three-car garages.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 19,699
IMPR. \$131,012
TOTAL: \$150,711

Subject only to the State multiplier as applicable.

PTAB/TMcG.

The comparables range in size from 3,872 to 4,035 square feet of living area and have improvement assessments of between \$134,239 and \$142,105 or from \$33.27 to \$36.61 per square foot of living area. The subject was purchased in July 2000 for \$1,367,500. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

The PTAB finds only the board's comparable one at \$33.27 per square foot and the appellant's comparable four at \$19.84 per square foot of building area are similar to the subject. The subject's per square foot improvement assessment of \$33.07 is within these two similar properties. The PTAB gives less weight to the remaining comparables because they are less similar to the subject in living area, age or building construction. After considering both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence of two similar properties is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
