

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Helen Adinamis  
DOCKET NO.: 04-26368.001-R-1  
PARCEL NO.: 05-31-300-052-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Helen Adinamis, the appellant, by attorney Lisa A. Marino of Marino & Associates of Chicago and the Cook County Board of Review.

The subject property consists of a 101-year-old, two-story single-family dwelling of stucco construction containing 2,176 square feet of living area and located in New Trier Township, Cook County. The residence contains two and one half bathrooms, a full basement, air conditioning and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered four suggested comparable properties located within a quarter mile of the subject. These properties consist of two-story single-family dwellings of stucco, frame or frame and masonry construction and range in age from 64 to 82 years. The comparables have one or two bathrooms and full or partial basements, one finished. Two comparables have air conditioning; three have fireplaces and three have one or two-car garages. The comparables contain between 1,407 and 2,004 square feet of living area and have improvement assessments ranging from \$21,935 to \$30,337 or from \$11.90 to \$18.13 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$48,412, or \$22.25 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered three suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story single-family dwellings of masonry or frame and masonry construction and range in age from 63 to 76 years. The comparables contain one or two bathrooms with half baths, full or partial basements, two finished; all have air conditioning and fireplaces and all have

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,866  
IMPR. \$48,412  
TOTAL: \$63,278

Subject only to the State multiplier as applicable.

two or three-car garages. The comparables contain between 1,605 and 2,049 square feet of living area and have improvement assessments of between \$39,229 and \$46,752 or from \$22.82 to \$24.44 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

With the exception of the appellant's comparable two (\$14.12 p/sf) the PTAB finds the remaining six suggested comparables are not similar enough to influence a change in the subject's current assessment. The PTAB gives little weight to the six remaining comparables because they are less similar to the subject in age, construction materials and living area. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
