

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Evelyn Michaels
DOCKET NO.: 04-26452.001-R-1
PARCEL NO.: 05-21-200-003-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Evelyn Michaels, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C., Chicago, and the Cook County Board of Review (board).

The subject property consists of a 43-year-old, two-story, single-family dwelling of masonry construction containing 4,368 square feet of living area and located in New Trier Township, Cook County. Features of the residence include three and one-half bathrooms, a partial-finished basement, air-conditioning, three fireplaces and a two and one-half car attached garage.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of masonry or frame and masonry construction and have the same neighborhood code as the subject. Two comparables are located on the same street and block as the subject. The improvements range in size from 3,880 to 4,835 square feet of living area and range in age from 37 to 62 years. The comparables contain from three to four and one-half bathrooms, a finished or unfinished basement, air-conditioning, from two to four fireplaces and a three-car garage. The improvement assessments range from \$18.51 to \$30.73 per square foot of living area.

At hearing, the appellant's attorney asserted that the appellant's comparables are similar to the subject and should be

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 78,658
IMPR.: \$ 139,776
TOTAL: \$ 218,434

Subject only to the State multiplier as applicable.

considered as such by the PTAB. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$218,434. The subject's improvement assessment is \$139,776 or \$32.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 37 or 38-year-old, single-family dwellings of masonry construction located within two blocks of the subject. The improvements contain 3,913 and 4,102 square feet of living area. The comparables contain three or three and one-half bathrooms, an unfinished basement, air-conditioning, one or two fireplaces and a two-car garage. The improvement assessments are \$34.18 and \$32.00 per square foot of living area, respectively.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, design, age, amenities and location and indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of six equity comparables. These six properties have improvement assessments ranging from \$18.51 to \$34.18 per square foot of living area. The subject's per square foot improvement assessment of \$32.00 falls within the range established by these properties. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
