

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Rocco Salatino  
DOCKET NO.: 04-26626.001-R-1  
PARCEL NO.: 07-26-118-001-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Rocco Salatino, the appellant, by attorney Joseph G. Kuser of Storino, Ramello & Durkin of Rosemont and the Cook County Board of Review (board).

The subject property consists of a 15-year-old, two-story, class 2-78 dwelling of masonry construction containing 3,443 square feet of living area and located in Schaumburg Township, Cook County. The residence includes two and one half bathrooms, a full basement, air conditioning, a fireplace and a three-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within three miles of the subject. These properties consist of two-story dwellings of frame and masonry construction, and are 26 years old. The comparables include two or three bathrooms, with half baths, full basements; all have air conditioning and fireplaces. The comparables have two-car garages. They contain between 3,090 and 3,360 square feet of living area and have improvement assessments ranging from \$29,799 to \$30,921 or from \$9.19 to \$9.64 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$42,688, or \$12.40 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered three suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story dwellings of masonry or frame and masonry construction. The comparables range in age from 12 to 35 years and with partial or full basement. The comparables have one or two bathrooms with half baths; all have air conditioning, fireplaces and all have

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

TOTAL: \$55,560

two or three-car garages. The comparable properties contain between 2,325 and 3,507 square feet of living area with improvement assessments of between \$30,631 and \$43,593 or from \$13.02 to \$13.29 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The PTAB finds the board's comparable one is the only comparable similar to the subject at \$13.29 per square foot of building area. This property has an improvement assessment of \$13.29 per square foot of living area and the subject's per square foot improvement assessment of \$12.40 per square foot is a lower assessment than this similar property. The PTAB gives less weight to the remaining five comparables because they are less similar to the subject in age or living area or construction materials and especially location. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence of one similar property is insufficient evidence to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did not adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

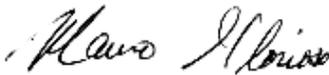

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
