

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jerrold J. Ezgur
DOCKET NO.: 04-26635.001-R-1
PARCEL NO.: 05-06-308-016-0000

The parties of record before the Property Tax Appeal Board are Jerrold J. Ezgur, the appellant, by attorney Mendy Pozin of Northbrook, and the Cook County Board of Review.

The subject property consists of a 57-year-old, one-story, single-family dwelling of frame and masonry construction containing 1,943 square feet of living area and located in New Trier Township, Cook County. Features of the home include two and one-half bathrooms, a partial-unfinished basement, a fireplace and a one-car attached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of one-story, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. Two comparables are located on the same street and block as the subject. The improvements range in size from 1,846 to 2,276 square feet of living area and range in age from 40 to 55 years. The comparables contain two full bathrooms, a partial-finished or unfinished basement, a fireplace and a one-car or two-car garage. Three comparables contain air-conditioning. The improvement assessments range from \$10.73 to \$12.44 per square foot of living area.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 17,111
IMPR.: \$ 33,889
TOTAL: \$ 51,000

Subject only to the State multiplier as applicable.

At hearing, the appellant's attorney argued that the board of review's comparables are superior overall to the subject in amenities as well as type of construction. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$58,958. The subject's improvement assessment is \$41,847 or \$21.54 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,217 to 2,874 square feet of living area and range in age from 51 to 53 years. The comparables contain two and one-half or three and one-half bathrooms, a full or partial-finished basement, air-conditioning, a fireplace and a one-car or two-car attached garage. The improvement assessments range from \$21.50 to \$24.96 per square foot of living area.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables to be the most similar overall properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$10.73 to \$12.44 per square foot of living area. The subject's per square foot improvement assessment of \$21.54 falls above the range established by these properties. The Board finds the board of review's comparables less similar overall to the subject in improvement size. In addition, the Board finds they are superior to the subject in type of construction and

amenities. The Board further finds the appellant's comparables one and two, which are located on the same street and block as the subject, have total assessments of \$51,873 and \$51,708, respectively. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
