

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Stuart Ryder  
DOCKET NO.: 04-26638.001-R-1  
PARCEL NO.: 05-33-405-013-0000

The parties of record before the Property Tax Appeal Board are Stuart Ryder, the appellant, by attorney Mendy Pozin of Northbrook, and the Cook County Board of Review.

The subject property consists of an 80-year-old, two-story, single-family dwelling of frame construction containing 1,628 square feet of living area and located in New Trier Township, Cook County. Features of the home include one and one-half bathrooms, a partial-unfinished basement, air-conditioning and a one-car detached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of frame or stucco construction with the same neighborhood code as the subject. The improvements range in size from 1,300 to 1,859 square feet of living area and range in age from 88 to 111 years. The comparables contain one and one-half or two full bathrooms, a finished or unfinished basement and a one-car or multi-car garage. One comparable contains air-conditioning. The improvement assessments range from \$12.23 to \$21.43 per square foot of living area.

At hearing, the appellant's attorney argued that seven of the eight suggested comparables contained in the record have a lower

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 13,794  
IMPR.: \$ 41,376  
TOTAL: \$ 55,170

Subject only to the State multiplier as applicable.

improvement assessment per square foot of living area than the subject. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$55,170. The subject's improvement assessment is \$41,376 or \$25.41 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 1,580 to 1,680 square feet of living area and range in age from 79 to 90 years. The comparables contain one and one-half, two or two and one-half bathrooms and a full or partial-unfinished basement. One comparable has air-conditioning, three comparables contain a fireplace and one comparable has a two-car detached garage. The improvement assessments range from \$25.22 to \$26.50 per square foot of living area.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Property Tax Appeal Board finds the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$25.22 to \$26.50 per square foot of living area. The subject's per square foot improvement assessment of \$25.41 falls within the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size, age and/or location. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment

is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
