

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Mary Yovovich
DOCKET NO.: 04-26641.001-R-1
PARCEL NO.: 05-27-107-016-0000

The parties of record before the Property Tax Appeal Board are Mary Yovovich, the appellant, by attorney Mendy Pozin of Northbrook, and the Cook County Board of Review.

The subject property consists of an 83-year-old, two-story, single-family dwelling of masonry construction containing 3,400 square feet of living area and located in New Trier Township, Cook County. Features of the home include three and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a two-car detached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,274 to 3,644 square feet of living area and range in age from 75 to 81 years. The comparables contain three or three and one-half bathrooms, a full-unfinished basement, a fireplace and a multi-car garage. Two comparables contain air-conditioning. The improvement assessments range from \$22.16 to \$25.01 per square foot of living area.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 47,092
IMPR.: \$ 125,800
TOTAL: \$ 172,892

Subject only to the State multiplier as applicable.

PTAB/rfd5493

At hearing, the appellant's attorney argued that the appellant's comparables are similar to the subject in size of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$182,238. The subject's improvement assessment is \$135,146 or \$39.75 per square foot of building area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 75 or 80-year-old, single-family dwellings of masonry construction located within four blocks of the subject. The improvements contain 2,932 and 3,405 square feet of living area. The comparables contain three and one-half bathroom, a full-finished basement, a fireplace and a two-car garage. The improvement assessments are \$37.39 and \$39.88 per square foot of living area, respectively.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables one and two and the board of review's comparable one to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$24.00 to \$37.39 per square foot of living area. The subject's per square foot improvement assessment of \$39.75 falls above the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size and/or construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
