

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Brian Troutman  
DOCKET NO.: 04-26697.001-R-1  
PARCEL NO.: 05-29-315-024-0000

The parties of record before the Property Tax Appeal Board are Brian Troutman, the appellant, by attorney James E. Doherty of Thomas M. Tully & Associates of Chicago the Cook County Board of Review.

The subject property consists of a 70-year-old, two-story single-family dwelling of masonry construction containing 2,924 square feet of living area and located in New Trier Township, Cook County. The residence contains two full bathrooms and two half baths, a finished partial basement, air conditioning, fireplaces and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered four suggested comparable properties located within a quarter mile of the subject. These properties consist of two-story single-family dwellings of masonry or frame construction and range in age from 63 to 74 years. The comparables have two, three or four bathrooms with some half-baths and full or partial basements, three finished. All homes are air-conditioned and three have fireplaces. The comparables have one or two-car garages. The comparables contain between 2,924 and 3,380 square feet of living area and have improvement assessments ranging from \$51,810 to \$78,003 or from \$16.81 to \$23.98 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$73,100, or \$25.00 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered two suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story single-family dwellings of masonry construction and range in age from 67 to 78 years. The comparables contain three bathrooms with some half-baths, finished full or partial basements; two have air conditioning,

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$24,955  
IMPR. \$73,100  
TOTAL: \$98,055

Subject only to the State multiplier as applicable.

three with fireplaces and one or two-car garages. The comparables contain between 2,452 and 2,910 square feet of living area and have improvement assessments of between \$61,300 and \$128,904 or from \$25.00 and \$44.30 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

The PTAB finds the board's comparables one, two and four and the appellant's comparable two are the comparables most similar to the subject. These four properties have improvement assessments ranging from \$23.98 to \$44.30 per square foot of living area. The subject's per square foot improvement assessment of \$25.00 is within this range of properties. The PTAB finds less weight in the remaining comparables because they are less similar to the subject in building materials. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence is insufficient to effect a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
