

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Marc Peters
DOCKET NO.: 04-26757.001-R-1
PARCEL NO.: 05-17-203-036-0000

The parties of record before the Property Tax Appeal Board are Marc Peters, the appellant, by attorney Sonja R. Johnson from the law firm of Much Shelist in Chicago, and the Cook County Board of Review.

The subject property consists of a 35-year-old, two-story, single-family dwelling of frame and masonry construction containing 10,724 square feet of living area and located in New Trier Township, Cook County. Features of the home include seven and one-half bathrooms, a full-finished basement, air-conditioning, two fireplaces and a two and one-half car attached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a three-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story, single-family dwellings of masonry or frame and masonry construction located within the subject's neighborhood. The improvements range in size from 8,132 to 10,964 square feet of living area and range in age from four to eighty-eight years. The comparables contain from four and one-half to eight full bathrooms, a finished or unfinished basement, air-conditioning, from two to five fireplaces and a multi-car garage. The

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 284,746
IMPR.: \$ 263,810
TOTAL: \$ 548,556

Subject only to the State multiplier as applicable.

improvement assessments range from \$19.01 to \$24.60 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$585,018. The subject's improvement assessment is \$300,272 or \$28.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry, stucco or frame and masonry construction located within the same survey block as the subject. The improvements range in size from 6,110 to 13,606 square feet of living area and range in age from four to forty-seven years. The comparables contain from four to seven full bathrooms, air-conditioning, three or four fireplaces and a multi-car attached garage. Two comparables have a finished or unfinished basement. The improvement assessments range from \$32.00 to \$43.43 per square foot of living area.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, design, amenities and location. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney argued that the board of review's comparables differ from the subject in age or/or size.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Property Tax Appeal Board finds the appellant's comparables to be the most similar properties to the subject in the record. These five properties are similar to the subject in improvement size, design, amenities and location and have improvement assessments ranging from \$19.01 to \$24.60 per square foot of living area. The subject's per square foot improvement assessment of \$28.00 falls above the range established by these

properties. The Board finds the board of review's comparables less similar to the subject in improvement size in that they are significantly smaller or larger in size of living area as compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
