

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Estelle Spector  
DOCKET NO.: 04-26838.001-R-1  
PARCEL NO.: 14-32-422-011-0000  
TOWNSHIP: North Chicago

The parties of record before the Property Tax Appeal Board are Estelle Spector, the appellant, by attorney Joanne P. Elliott of Elliott & Associates in Des Plaines, and the Cook County Board of Review.

The subject property consists of a 15-year-old, three-story, average condition, single-family dwelling of masonry construction containing 3,405 square feet of living area. Features of the home include two and one-half bathrooms, air-conditioning, a fireplace and a two-car detached garage. The subject is built on slab and located in North Chicago Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on six properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the six suggested comparables consist of two-story or three-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. Two comparables are located on the same street as the subject. The improvements range in size from 2,798 to 3,690 square feet of living area and range in age from four to nineteen years. The comparables contain two and one-half or three and one-half bathrooms, air-conditioning, one or two fireplaces and a one-car or two-car garage. The improvement assessments range from \$15.18 to \$27.76 per square

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 15,360  
IMPR.: \$ 102,150  
TOTAL: \$ 117,510

Subject only to the State multiplier as applicable.

foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$131,115. The subject's improvement assessment is \$115,755 or \$34.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story or three-story, single-family dwellings of masonry construction located within eight blocks of the subject. The improvements range in size from 2,749 to 3,700 square feet of living area and range in age from 10 to 165 years. The comparables contain two, two and one-half or three full bathrooms, a two-car detached garage, a full-finished basement, one or two fireplaces as well as air-conditioning. Two of the board's comparables enjoy above average condition. The improvement assessments range from \$33.81 to \$39.12 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables three, five and six to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and construction. In addition, two of the comparables are located on the same street and block as the subject. These three properties have improvement assessments ranging from \$23.62 to \$27.76 per square foot of living area. The subject's per square foot improvement assessment of \$34.00 falls above the range established by these properties. The Board finds the appellant's remaining comparables less similar to the subject in improvement size and/or age. The board of review's comparables are accorded less weight because they differ the subject in size, amenities, condition and/or location. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board

finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
