

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: George San Jose
DOCKET NO.: 04-27257.001-R-1
PARCEL NO.: 05-29-103-041-0000

The parties of record before the Property Tax Appeal Board (PTAB) are George San Jose, the appellant, by attorney Arnold G. Siegel of Chicago and the Cook County Board of Review (board).

The subject property consists of a 35-year-old, two-story single-family dwelling of masonry construction containing 5,206 square feet of living area and located in New Trier Township, Cook County. The residence contains four full bathrooms and one half-bath, a full basement, air conditioning, a fireplace and a three-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered seven suggested comparable properties located within four blocks of the subject. These properties consist of two-story single-family dwellings of masonry, frame or frame and masonry construction and range in age from 32 to 106 years. The comparables have two, three or four bathrooms, most with half-baths and all properties have full or partial basements. Six homes have air-conditioning; all have fireplaces and all have two or three-car garages. The comparables contain between 5,056 and 5,978 square feet of living area and have improvement assessments ranging from \$106,428 to \$122,516 or from \$18.92 to \$21.36 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$142,476, or \$27.37 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered four suggested comparable properties located within a mile and a quarter of the subject. The comparables consist of two-story single-family dwellings of masonry, stucco or frame construction and range in age from seven to 76 years. The comparables contain three or four bathrooms with half-baths and have full or partial basements, two finished; all have air conditioning, fireplaces and three have three-car

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 84,374
IMPR. \$110,626
TOTAL: \$195,000

Subject only to the State multiplier as applicable.

garages. The comparables contain between 4,170 and 7,605 square feet of living area and have improvement assessments of between \$128,382 and \$220,544 or \$27.51 and \$30.79 per square foot of living area. The board disclosed the subject was purchased in January 2002 for \$2,390,000. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has overcome this burden.

The PTAB finds the appellant's comparables one, two and four are similar to the subject but with some differences in living area and age to be considered. These three properties have improvement assessments ranging from \$20.74 to \$21.36 per square foot of living area. The subject's per square foot improvement assessment of \$27.37 is above this range of properties. The PTAB gives less weight to the remaining eight comparables because they are less similar to the subject in living area or construction materials or age. After considering the 2002 purchase price and the suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is sufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
