

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Maryanne Doyle
DOCKET NO.: 04-27276.001-R-1
PARCEL NO.: 05-20-403-019-0000

The parties of record before the Property Tax Appeal Board are Maryanne Doyle, the appellant, by attorney Arnold G. Siegel, of Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with an 80-year old, two-story dwelling of masonry exterior construction containing 3,253 square feet of living area. Features of the dwelling include a full unfinished basement, a fireplace and a three-car detached garage.

The appellant's appeal is based on unequal treatment in the assessment process. In support of this argument the appellant submitted information on three comparable properties described as two-story masonry or frame and masonry dwellings that range in age from 68 to 78 years old for consideration. The comparables range in size from 2,822 to 3,270 square feet of living area. Each of the comparables has a basement, one comparable has central air conditioning, three comparables have 1 or 2 fireplaces and each comparable has a 1 or 2-car attached garage. The comparables have total assessments that range from \$76,500 to \$89,999 and improvement assessments that range from \$52,476 to \$69,609 or from \$17.31 to \$21.29 per square foot of living area. The subject has a total assessment of \$98,000 and an improvement assessment of \$70,512 or \$21.68 per square foot of living area. The appellant argued the subject's improvement assessment equates to a market value of \$135.47 per square foot of living area which is 11.4% more than the average market value reflected by the improvement assessments for the comparables of \$121.56 per square foot. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to reflect a market value of \$121.56 per square foot resulting in an improvement assessment of \$63,270 or \$19.45 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 27,488
IMPR.: \$ 70,512
TOTAL: \$ 98,000

Subject only to the State multiplier as applicable.

information on three comparable properties consisting of two-masonry dwellings that ranged in age from 75 to 81 years old. The comparable dwellings ranged in size from 3,250 to 3,894 square feet of living area. Each comparable has a basement, each comparables has one or two fireplaces and two comparables have two-car garages. These properties have total assessments ranging from \$111,966 to \$152,367 and improvement assessments ranging from \$84,478 to \$115,715 or from \$25.99 to \$29.75 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparable 1 and 2 submitted by the appellant and comparables 1 and 3 submitted by the board of review were similar to the subject in size, age, construction and features. These four comparables ranged in size from 3,031 to 3,580 square feet of living area and ranged in age from 68 to 81 years old. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments ranging from \$17.31 to \$29.75 per square foot of living area. The subject's improvement assessment of \$21.68 per square foot of living area is within this range.

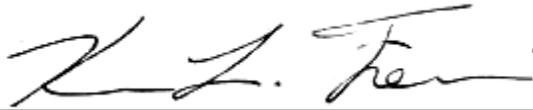

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

In conclusion, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
