

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Paul Hardiman
DOCKET NO.: 04-27284.001-R-1
PARCEL NO.: 05-28-302-034-0000

The parties of record before the Property Tax Appeal Board are Paul Hardiman, the appellant, by attorney Arnold G. Siegel of Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with a 75-year old, two-story dwelling of masonry exterior construction containing 3,712 square feet of living area. Features of the dwelling include a full basement with a recreation room, one fireplace and a 2-car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. In support of this argument the appellant submitted information on six comparable properties described as two-story frame, masonry or frame and masonry dwellings that range in age from 64 to 77 years old for consideration. The comparables range in size from 3,212 to 3,714 square feet of living area. Each of the comparables has a full basement with four having recreation rooms, each of the comparables has central air conditioning, each of the comparables has 1 or 2 fireplaces and each of the comparable has a 2-car garage. The comparables have total assessments that range from \$83,100 to \$117,383 and improvement assessments that range from \$66,732 to \$83,723 or from \$20.78 to \$23.49 per square foot of living area. The subject has a total assessment of \$130,000 and an improvement assessment of \$96,340 or \$25.95 per square foot of living area. The appellant argued the subject's improvement assessment equates to a market value of \$162.21 per square foot of living area which is 17.6% more than the average market value reflected by the improvement assessments for the comparables of \$137.94 per square foot. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to reflect a market value of \$137.94 per square foot resulting in an improvement assessment of \$81,925 or \$22.07 per square foot of living area.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

| | | |
|--------|----|---------|
| LAND: | \$ | 33,660 |
| IMPR.: | \$ | 81,925 |
| TOTAL: | \$ | 115,585 |

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story masonry dwellings that range in age from 4 to 74 years old. The comparable dwellings range in size from 1,934 to 3,327 square feet of living area. Each comparable has a basement, two comparables have central air conditioning, each comparable has 1 or 2 fireplaces and each comparable has a 2-car garage. These properties have total assessments ranging from \$72,807 to \$121,623 and improvement assessments ranging from \$54,958 to \$103,774 or from \$26.74 to \$31.19 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

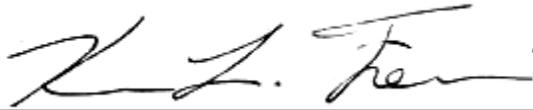

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the comparables submitted by the appellant were overall most similar to the subject in size, age and features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments ranging from \$20.78 to \$23.49 per square foot of living area. The subject's improvement assessment of \$25.95 per square foot of living area is above this range. In conclusion, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
