

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: John O'Bryan  
DOCKET NO.: 04-27305.001-R-1  
PARCEL NO.: 05-17-107-051-0000

The parties of record before the Property Tax Appeal Board are John O'Bryan, the appellant, by attorney Jerrold H. Mayster with the law firm of Mayster & Chaimson, Ltd. in Chicago, and the Cook County Board of Review.

The subject property consists of a 79-year-old, two-story, single-family dwelling of stucco construction containing 2,442 square feet of living area and located in New Trier Township, Cook County. Features of the residence include two full bathrooms, three half-baths, a fireplace and a full-unfinished basement.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story, single-family dwellings of frame or frame and masonry construction located within the same survey block as the subject. Three comparables are located on the same street as the subject. The improvements range in size from 2,236 to 3,203 square feet of living area and range in age from 73 to 91 years. The comparables contain from one and one-half to three and one-half bathrooms, a fireplace and a full-unfinished basement. Four comparables have a one-car or two-car garage. The improvement assessments range from \$23.72 to \$27.34 per square foot of living area. Based on

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 15,960  
IMPR.: \$ 66,545  
TOTAL: \$ 82,505

the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$92,048. The subject's improvement assessment is \$76,088 or \$31.16 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame or stucco construction with the same neighborhood code as the subject. The improvements range in size from 2,106 to 3,289 square feet of living area and range in age from 84 to 91 years. The comparables contain two, two and one-half or three full bathrooms, one or two fireplaces and a partial or full-unfinished basement. Two comparables contain air-conditioning and a multi-car garage. The improvement assessments range from \$33.84 to \$34.60 per square foot of living area. The board's evidence disclosed that the subject sold in March 2004 for a price of \$918,691. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables two, four and five to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, age, amenities and location and have improvement assessments ranging from \$23.92 to \$27.34 per square foot of living area. The subject's per square foot improvement assessment of \$31.16 falls above the range established by these properties. The remaining comparables are accorded less weight because they differ from the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject

dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
