

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Judith Macleod  
DOCKET NO.: 04-27308.001-R-1  
PARCEL NO.: 05-28-202-017-0000

The parties of record before the Property Tax Appeal Board are Judith Macleod, the appellant, by attorney Stephanie Park of Stephanie Park, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of an 84-year old, two-story style dwelling of frame exterior construction containing 2,876 square feet of living area with a partial, unfinished basement, two fireplaces and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing eight suggested comparable properties located in the same neighborhood as the subject property. The comparables are two-story frame, masonry, stucco or frame and masonry dwellings that are from 63 to 101 years old. They have basements, two have central air conditioning and they all have fireplaces and garages. The comparables range in size from 2,426 to 3,216 square feet of living area and have improvement assessments ranging from \$20.74 to \$23.90 per square foot. The subject property has an improvement assessment of \$26.32 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing two suggested comparable properties located in the same neighborhood as the subject property. The comparable properties consist of two-story frame or masonry dwellings that are 76 and 96 years old. They have basements, fireplaces and garages. The dwellings contain 2,724 and 4,413 square feet of living area and have improvement assessments of \$28.67 and \$28.72 per square

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	40,098
IMPR.:	\$	75,700
TOTAL:	\$	115,798

foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted.

The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of ten equity comparables that were similar to the subject in location and design. The appellant's comparable one and the board of review's comparable two were frame dwellings like the subject. They were also similar to the subject in size and age. Due to their similarities to the subject, they received the greatest weight in the Board's analysis. They had improvement assessments of \$20.74 and \$28.72 per square foot. The subject's \$26.32 per square foot improvement assessment is between these assessments. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
